

Secures your productivity with stronger and more resilient crops

SULPHO-MAGNESIAN FERTILISER WITH GROWTH STIMULANT | LIQUID

👍 WHY USE IT

- Limit the impact of abiotic stresses on crops
- Promote crop growth
- Increase crop profitability

+ PRODUCT BENEFITS

- **Compatible** with herbicides, fungicides, growth regulators, and insecticides
- **No additional spraying** required
- **Ready to use**

PACKAGING

barrel
200L

can
10L

CEREVO

- ✓ Stimulates the metabolism that promotes crop growth
- ✓ Provides amino acids that reduce the plant's energy losses under climatic stress
- ✓ Supplies antioxidants to maintain the crop within a healthy pH-RedOx Balance
- ✓ Strengthens crops and secures yield

TECHNICAL SPECIFICATIONS

Instructions for use:

Cultures	Dosage et période d'application
Straw cereals (wheat, barley, oat, triticale, rye)	1 L/ha between emergence and tillering* 1 L/ha between 1 cm ear stage and second node 1 L/ha at Flag Leaf stage
Oilseed rape	1 L/ha at 4-6 true leaf stage* 1 L/ha at stem elongation (stem 20 cm) 1 L/ha at early flowering stage
Corn, sorghum, sunflower	1 L/ha at 4-6 true leaf stage
Seed corn, grain sorghum	1 L/ha at 4-6 true leaf stage 1 L/ha at male flowering stage
Other crops	Please consult your distributor

* Depending on conditions

Composition:

- Amino acid base
- Plant extracts (including nettle and horsetail)
- Floral elixirs

Density: 1,18
pH: 4,07

Carrier:

- Trace elements: magnesium sulphate, manganese sulphate, zinc sulphate, copper sulphate, sodium borate

Recommandations:

Shake well before use. Follow good spraying practices. Spray with humidity above 60%, preferably early in the morning or late in the day, at a pressure of around 2 bar. The spray water must be of good chemical and physical quality: soft water (<15°F) and RedOx potential <300 mV. Do not spray with water that is too cold (>10 °C) or with a pressure below 2 bar. Allow an interval of 2 to 3 weeks between the application of REGESOIL and the first application of CEREVO.

Compatible with most trace elements, contact your technician for further information.
